**Re: NOTICE TO AVEK M & I CUSTOMERS  
RECEIVING RAW UNTREATED WATER**

**Dear AVEK Customers:**

**The purpose of this letter is to remind you that the water which you are receiving from Antelope Valley-East Kern Water Agency is not safe for ingestion by humans. This water is taken from an open canal and delivered to you without any disinfection whatsoever. Ingestion of this non-potable water can cause serious illness. Please take precautions to ensure that no one drinks this water.**

**We also want to remind you that this non-potable water supply is subject to interruption at any time, and perhaps for prolonged periods of time. It is only a supplemental source of supply, and you must have a primary source of supply available for your use when the Agency's supply may be unavailable.**

**We appreciate having you as a customer and simply wanted to send this reminder to all those receiving non-potable water service from the Agency.**

**Very truly yours,**

**Russell E. Fuller  
General Manager**
